## NEEDLEWORK GUILD DISPLAYS A TOTAL OF 1534 GARMENTS

An Advance of 134 Items Over the Number at The 1950 Ingathering

### HAVE GUEST SPEAKER

Mrs. Minerva Epstein, Health Educator for "TB" Society, Speaks

As is the custom each year, members of Bristol Branch, Needlework Guild of America, heard yesterday from a representative of one of the organizations which passes on Guild garments to many in need.

The speaker at this, the annual Ingathering and exhibition of the local branch, was Mrs. Minerva Epstein, Madison street, health educator for Bucks County Tuberculosis Society. Mrs. Epstein was presented to the gathering of 35 women in the community house, Dorrance street, by Mrs. Walter W. Pitzonka, president of the branch.

After congratulating the guild on advancing 134 garments this year for a total of 1,534, Mrs. Epstein proceeded to recall how the Mothers Assistance organization which she represented several years, made good use of the new articles of clothing. She informed that many garments are utilized through the T. B. society for patients taken to tuberculosis hospitals and sanitariums.

A portion of this most enlightening talk was taken up with information on the origin of the Christmas seal, Mrs. Epstein telling how the idea originated in Denmark, and how in October, 1907, the late Miss Emily Bissell originated a similar plan in Wilmington, Del., and later in Philadelphia. She lived to see the seal sales established in all 48 states and in the U. S. territories and possessions.

The advance in cure of tuberculosis was mentioned, with medical science shifting the disease from first to eighth place in the list of killing diseases. The 97 clinics in Pennsylvania, and three in Bucks county (Bristol, Doylestown and Quakertown) were mentioned. Bucks County society was organized in 1918, Mrs. Epstein informed, and

### Bucks County Groups Want to Operate Alone

The two welfare groups organized in Falls Township to provide welfare services for the Lower Bucks County area, last night agreed to hold a joint meeting at 8 P. M. Friday, Dec. 7, to discuss possibilities of joint operation.

The groups, United Fund Citizens' Committee for Lower Bucks County, headed by Albert Minder, and the Lower Bucks County citizens committee for health and welfare needs, headed by Stanley Renton, indicated emphatically they would operate under their own power "with complete autonomy and as democratically as possible."

Some of the spokesmen who vigorously opposed joining an "outside organization" included G. P. Roesor, executive member of the Bucks County UP group; John T. Mladjen and several others.

Lucius Smith, 3d, public relations director of the DVUF, said the DVUF was "gratified to hear that Lower Bucks residents want to form their own welfare organization, because it will relieve us of a great financial burden."

### Pipe-Fitters Back On Job, Union Agent Says

Approximately 150 pipe-fitters, who are said to have been on strike since Friday at the Fairless Works of the U. S. Steel Co., Falls township, returned to their posts yesterday. This is according to announcement by John Murray, an agent for Local 429 U. A., in Philadelphia.

"The strike was unauthorized by Local 429," says Mr. Murray. The plant is said to be about 20 per cent completed, and it was thought the "unauthorized" strike might hamper progress on the plant.

Queried about the strike and the fact that the strikers intended to throw picket lines about the three main entrances to the plant today, Mr. Murray stated he did not care "to make further comment."

The Democrats particularly are interested in one township commissioner and one school director post which saw a difference of only a few votes between opposing candidates.

### Philippines Support American Plan

Paris—The Philippines strongly supported the American disarmament plan today and attacked the Soviet counter-proposal as one built "on quicksand."

Brig. Gen. Carlos Romulo also appealed in the U. N. General Assembly for the major powers to get down to detailed talks to try to solve the deadlock. Egyptian foreign minister Salah El Din Pasha meanwhile charged Britain with waging "a real war" against Egypt and accused the British of "shameful, treacherous aggression."

### Communist Planes Over Northwest Korea

Eighth Army Hq.—Communist jet planes emerged from their Manchurian hideouts and streaked over northwest Korea today but avoided combat with patrolling American jets. American pilots said they spotted 116 Soviet-type MIG-15 jets in the murky Korean skies but were unable to get the Red fliers to fight. In every instance the enemy jets turned and fled back to their Manchurian "sanctuary." Wintry cold and soupy-thick fog restricted ground as well as air action.

### HOSPITAL FUND IS SHORT \$8006 OF GOAL

Think \$1,200,000 Objective Will Be Over-Subscribed and Work Started Soon

### REPORTS ARE MADE

The most ambitious civic program ever undertaken in Lower Bucks County approached a dramatic conclusion last night with the announcement that \$1,191,944 had been subscribed toward the community's share of a new 100-bed hospital to serve the area. At nine o'clock last evening, the total was only \$8,096 short of the full amount needed. With continuing solicitation of employee groups as well as anticipated contributions from corporations, all indications were that the objective of \$1,200,000 would be well over-subscribed and early construction of the hospital assured.

Enthusiasm at the drive's Victory Dinner, held last night at Goodwill House Company, No. 3, reached a peak as Chairman James E. Harris gave the total standing of the fund, following individual reports from chairmen of all committees active in the campaign. Committees showing marked increases, since the previous report meeting were the community campaign, with a total of \$194,525 and the corporation committee, whose latest stand-

## H. S. PRODUCTION TO BE STAGED 2 NIGHTS

"George Washington Slept Here" is Ready for Staging This Evening

### BIG LAUGH SUCCESS

"George Washington Slept Here," the Broadway laugh success by George S. Kaufman and Moss Hart, will be ready for presentation to the public by Bristol high school's Class of 1952 tonight and tomorrow night.

This is the comic story of Newton Fuller, a city man afflicted with rural rhapsody, who quickly discovers that the bucolic life is far from idyllic. The Newton Fuller family is inducted into the old army game where the would-be landed gentry buy an abandoned farmhouse. They pay four prices for everything, and find they have no water, no road, the roof leaks, there isn't any cess-pool, and the kitchen lacks a wall—so the Fullers lack a cook.

In the presentation, which has been staged by Philip B. Frankmore, of the high school faculty, the part of Fuller will be played by Boyd Freedman; while his wife and daughter, unsympathetic to Newton's back-to-nature impulses will be acted respectively by Shirley Moskowitz and Kathryn David.

Jay Katz will be seen as the long-winded, bluff Uncle Stanley; and John Furlano will be seen as the brat Raymond, aptly described by one of the characters as "Huckleberry Capone." Dwight Spencer will portray a country "slicker" and other roles have been assigned to Karl Gudenberg, K. L. Finegan, Vincent Recca, Eleanor Virgulti.

## BRISTOL IS IN DANGER OF LOSING AIRPORT, CLAIMED BY MANY AS THE FINEST LANDING FIELD IN BUCKS COUNTY

Is Threatened by High Tension Line Now in Course of Construction by Philadelphia Electric Company — Is Located on 3M Ground and is Leased by Engle Flying Service, Under Management of Harold Hayden.

Bristol is in danger of losing its airport which is the finest landing field in Bucks County in the opinion of many. The airport is threatened by the high tension line now in course of construction by the Philadelphia Electric Company. The airport is located on ground owned by the Minnesota Mining and Manufacturing Company and is leased by the Engle Flying Service under the management of Harold Hayden.

The high tension line is being built due to the development of Lower Bucks County industrially. The fight against the erection of the towers is being carried to the utmost. The erection of the towers, it is felt, will really block the use of the airport for large planes either with or without cargo.

The runways are 3400 feet long but with big planes it is necessary for them to descend at a distance from the runways before touching the ground. It is in this manner that the steel towers present a hazard.

The State authorities have been appealed to but give the answer that the Philadelphia Electric Company is within its rights as the towers are 500 feet away from the airport and that the towers are being built on a right-of-way obtained by the company for this purpose.

The towers are between 80 and 90 feet high.

The Bristol Chamber of Commerce is taking every step advisable in an effort to have a change made in the plans for the location of the towers. It is contended that Bristol is particularly fortunate in having such a landing field which was built by the U. S. Navy during World War II, at a cost of a million and a half dollars. The Bristol area is now rapidly developing and the airport is considered to be ex-

## MANY DONATE BLOOD IN BENSLEM AREA

Those in Charge Say The Response Exceeded The Original Quota

### LIST THOSE WHO GAVE

The employees of industry responded wholeheartedly to the appeal to donate blood, through the "Insurance Principle" of the National Blood Program.

Yesterday the Bloodmobile was stationed at King's Hall in Andalusia and the program far exceeded the original anticipated quota.

Red Cross volunteers, including the Gray Ladies, were on hand to assist the collection and officials were delighted with the efficiency of the operation.

Chairman Joseph Forrest had this to say: "On behalf of the industries in lower Bensalem township, and the people who volunteered their services, I want to thank each of you personally for the fine co-operation and thorough support you gave to make the bloodmobile visitation such a success. I know you are aware of the fact that 25% of the blood taken from the employees went to the armed forces, the need of which is so great that some of that blood will be flown direct to Korea."

"Again I want to express my keen appreciation for the fine work done by these employees who took part in the program. Their names are listed below."

### STORMY WEATHER

"Into each life some rain must fall, some days must be dark and dreary," wrote Longfellow in fatalistic vein. He obviously felt that if it rains, that isn't grounds for suing somebody.

But that was before the days when rainmaking became a profession. Today, New York City faces 169 claims by persons and communities asking the city fathers to pay them \$2,138,510 for damage done by storms they say were caused by municipal rainmakers.

The city's reply is couched in language less poetic and no more platitudinous, but it does not differ essentially from Longfellow's philosophic comment. It says, in effect, that the wind still bloweth where it listeth, and that any connection between rainmaking experiments and torrential downpours is purely coincidental.

That is, rainmaking doesn't work—or, if it does, it doesn't work well enough so that claimants can prove that the particular rain which damaged their property was man-made, not heaven-sent.

One claimant cites damage allegedly caused by a storm last November 25, which nearly drowned his 120 mink. He is convinced no rain could be that mean unless some government had a hand in it. Other claimants say the same storm washed out bridges, ruined fall crops, and caused extensive damage to homes and roads.

But New York denies it. Its rainmakers never were that good, the city insists. In fact, the November 25 storms were the entirely natural result of an atmospheric disturbance that blew into New York from the Ohio Valley. It was quite a storm. Only now is New York beginning to realize what a storm it was.

### CATY

The country has just undergone—believe it or not—National Cat Week, promoted by, of all things, the American Feline Society Inc. The goal for this "week" was to find homes for approximately 10,500,000 cats, or one-half of the nation's feline population. No figures have been released to reveal how successful this effort was.

There is a practical side to such efforts (the organization) which has members in 43 states, says. The organization would like to see more cats installed in places of business, in factories and warehouses, as a curb against rats and mice. It is asserted the average cat will kill at least two dozen rodents every 24 hours, a feat that results in great saving of cat food.

Cats rank second only to dogs as family pets, it is pointed out, and have grown in favor in recent years. The ancient Egyptians held them sacred, and mummies of cats are still unearthed there.

Ah, well, the growing multiplicity of "weeks" for this and that was certain to catch up with cats sooner or later.

We call him Mr. X because Blue Cross and Blue Shield don't believe in parading the names of hospitalized subscribers in the newspapers.

But you don't need to ask Mr. X himself—or any of the 1,200,000 people in this area for whom Blue Cross has paid hospital bills in the last 13 years.

Ask yourself. Suppose illness or accident sent you to the hospital. Suppose your bill, like that of Mr. X, were over a thousand dollars. And suppose Blue Cross paid all except a tiny fraction of it, while Blue Shield took care of a good part of your medical-surgical expenses. It could happen today—to you or a member of your family.

You'd thank your lucky stars for these nonprofit, community-sponsored plans!

As you can see by the bill, Blue Cross takes care of practically everything when you're hospitalized—room, board, nursing services, drugs and medications in common use (including the generally recognized "wonder drugs"), many other things. Blue Cross provides hospital services—not a lump sum of cash that may amount to only a small portion of your bill.

Blue Shield relieves you of all or a major part of medical-surgical expenses for treatment of any disease, injury, fracture or dislocation.

Cost is small. Only nonprofit plans designed for

community service could possibly give so much for so little.

Until November 30 only, there will be no employment qualifications for joining Blue Cross or Blue Shield as a non-group member.

**Now you can join—no matter where you work!**

Your whole family can join. The only requirements are that new applicants be under 60 and in good health. Even if a previous application

has not been accepted because of employment restrictions, a new application now will probably make you a member.

Get full information by mailing the coupon or calling the telephone number listed below. You send no money and are not obligated in any way. No salesman will call.

But act today—now—for time is getting short!

## Cancer Society Provides Dressings

Continued from Page One

ong this line are: one at Morris-le Presbyterian Church, which has been making dressings for the last two years, and a group at St. James Episcopal Church, here, which has been engaged in the work for about a year.

"We make four standard size dressings, but will and do make larger ones to order," Mrs. Tomlinson informs. "We supply dressings not only to home cases, for cancer and other types of patients, but also to hospitals, free of charge."

The dressings are made of any fit, suitable material donated by individuals. The units make the dressings from pillow cases and sheets. They utilize old shirts and lamp fons of any size for hospital gowns. Stuffed are made from old shirts, discarded dresses or coats. Once sterilized, these prove most useful in homes where there are ill folk using many dressings; as well as to those who are hospitalized.

"We are branching out now," comments Mrs. Tomlinson as she lists of several calls from home cases, many of which are not of the cancer type. She adds that the demand will no doubt be greater with the coming of new industries and countless new homes to lower Bucks County. Supplies of such dressings are also available for physicians' offices.

The main office for the county is Doylestown. Dr. Allen H. Moore, president of the county association. The expectation is that any more branches will be opened.

One is anticipated at Quakertown where there is already in operation a clinic which can readily fill for the dressings is supplied.

by the Cancer Association, funds being derived from the fund drives. "If at any time families need dressings for any type cases they may contact me, or reach me through the Red Cross," states Mrs. Tomlinson.

## Frank Treat

Here's a frankfurter treat youngsters will enjoy especially. Slice the frank and add to fluffy scrambled eggs. Just before serving fold

a bit of pickle relish and tomato sauce into the frank-scrambled egg mixture and serve on toasted buns.

## Liver, Bacon Casserole

Liver and bacon join in this casserole. Cut strips of bacon in small pieces and pan fry. Brown the thin

liver slices in the bacon fat, then place both meats in a casserole with diced potatoes and a can of button mushrooms. Add cream sauce for condensed mushroom soup to replace the button mushrooms. Bake for 1 to 1½ hours in a 300 degree F. oven.

# Maybe you have missed the big fact about Kaiser!

"Countless friends have written me declaring that the Kaiser is America's most beautiful car. Naturally, that's heart-warming to hear."

"But I'm asking you to forget Kaiser's beauty—for a moment, at least—and consider a far more important fact about the Kaiser."

"That fact is the quality of Kaiser engineering. True functional engineering

that has created the most perfectly balanced chassis on the road...and the smoothest, most effortless ride! True economy engineering that makes the Kaiser serve longer at less cost than the cars you've known up to now!

"And the only way to know this fact is to drive the Kaiser yourself. Let your own experience prove that the Kaiser is your soundest investment by far!"

More "eye-opening" reasons why you ought to own the 1951 Kaiser today!

widen the Oxford Valley-Tullytown road to the width of 80 feet and 20 feet of this width will encroach on the cemetery which is located along that road.

The petition, which alleges there have been no burials in the cemetery in the last half century, asks that any bodies buried in this 20-foot strip be reburied in the graveyard.

There is no recorded deed of any person, firm, corporation, church or religious body owning the cemetery.

At one time the cemetery was on land owned by George B. Messer, which surrounded it.

It is announced that estimates are being obtained on cost of burning a 40-watt bulb for an eight-hour period. This is due to the fact several residents have suggested leaving front porch lights burning at night until street lighting is installed. There is talk of arrangements for such being made through the Danforth Corporation.

There are indications locally that terms and payment provisions are being worked out by the Galbreath organization to permit early opening of a sales program in the Hills. It is announced that possibly "residents here would be able to own their homes within a 30-day period."

## Needlework Guild Displays A Total of 1534 Garments

Continued from Page One  
she proceeded to tell of the early leaders, and the work among both children and adults. "Tuberculosis is not known as a children's disease, it striking more folks between the ages of 15 and 45," she reminded.

The X-ray work of the association was given some attention, and the group informed that last year over 11,000 chest X-rays were taken in the county, many being in public and private schools, in industrial establishments, etc. "We are working toward having every person X-rayed. That is the only way to eradicate the disease."

Food handlers and bus drivers are X-rayed free of charge was one point brought out. "We hope some day that the return from seal sales may cover cost of X-rays. But of the letters sent out containing seals only one-third return the money. One-third we never hear from, and the other one-third return the seals."

Other activities of the society were mentioned, such as supply of material for various tests, clothing for those entering sanitariums, transportation to sanitariums, tuition for school nurses attending health education workshops, literature and health films.

The difficulty in "rounding up" food handlers for X-rays was mentioned, the speaker informing that it is mandatory that all school cafeteria workers and school bus drivers have X-rays taken. "Tuberculosis is a communicable disease. You catch it from someone who has it. And the hospital is the only place for such patients."

Speaking briefly to the group was

Mrs. Henry E. Ancker, who for 14 years had served as president of the local guild. She expressed the hope that the unit can again attain a much higher figure in garments, mentioning that at one time over 5,000 were gathered annually. She urged that each member start work for the next year early.

"Possibly the day after this gathering," Mrs. Ancker called attention to the memorial table where there were spread out many garments, given as memorials to individuals.

Prayer was offered by the Rev. Paul Gleichman, pastor of Zion Lutheran Church, Bristol. Pitzonka, in opening the meeting, read an article on "The Unsung Needlework Guild," adding something of its history, and saying "The Needlework Guild has done a marvelous work and so little is said about it."

Minutes of the directors meeting were read by Mrs. Paul V. Forster, and the treasury report was presented by Mrs. Harold N. Crooker, treasurer.

Attention was called to the many undergarments, dresses, trousers, shirts, jackets, caps, wash-cloths, towels, household linens, afghans, etc., made and bought by members. Appearing on the honor roll were the following: Mrs. Margaret Siddons, 178 items; Bristol sewing group, 150; Edgely sewing group, 142; Mrs. Henry E. Ancker, 138; Mrs. L. J. Bevan (memorial table), 128; Miss Florence Chambers, 126. In tribute to the memory of Mrs. Clifford L. Anderson and Mrs. Thomas Doron, members briefly stood in silence.

The "production line" method used by some sewing groups to make many garments was mentioned by Mrs. Pitzonka, who issued an invitation for any interested to gather for one or two hours or more each week at the Bevan home to take part in this project.

The president told how the guild works hand-in-hand with the Red Cross, schools, and other groups to help those in need; and told of being called on for clothing in instances of fires or other disasters. "We like to share. We are glad to broaden out in giving aid," she commented.

## Soldiers Tell How The Red Cross Aided Them

HULMEVILLE, Nov. 16 — How much the American Red Cross has meant to them was told by Cpl. William Leonard, of Providence, R. I., and Sgt. Shibley Cayotte, Utica, N. Y., when they addressed the Hulmeville-Middletown Parent-Teacher Association, in the school house here, Wednesday evening. Both are patients at Valley Forge Hospital, Phoenixville, having been wounded in Korea.

Sgt. Cayotte has had eight years' army service. Cpl. Leonard joined the National Guard at the age of 13, and the U. S. Army at 14. When he was 17 he was blown out of a fox hole and lost an eye. He informed how his life had been saved through blood transfusions arranged by the Red Cross. He has since then donated two pints of blood to the Red Cross.

Leonard stated he would like to have members of the audience tell him derogatory rumors they had heard about Red Cross activities, and these he proceeded to prove false. One member of the audience informed of buying a pack of cigarettes from the Red Cross, but when queried by Leonard finally decided that it was a soldier who had sold them to him.

Sgt. Cayotte stated that the Red

### Today's Quiet Moment

By the Rev. George E. Boswell  
Rector  
St. James Episcopal Church

O loving Father grant that in all things we may be found faithful. We pray that Thou wilt increase our loyalty to Thee. Strengthen us when we face hardness and help us never to shirk our duties. Free us from pride and prejudice, and make us sincere Followers of Thee. Grant that each day we may accomplish much for the building of Thy kingdom on earth. We ask it for His sake, who died that we might live. Amen.

## Appeals Award of \$8250 To Morrisville Fire Co.

MORRISVILLE, Nov. 16—An appeal against an award of \$8250 damages to the Union Fire Co., of Morrisville, has been filed by the Delaware River Joint Toll Bridge Commission in Quarter Sessions Court at Doylestown. It was announced yesterday.

T. Sidney Cadwallader, Morrisville Borough solicitor, said that a jury of view had granted the award to the fire company on Nov. 1 for damages suffered when the bridge commission condemned a plot of land adjacent to the firehouse on South Pennsylvania avenue and owned by the company.

The land was acquired by the commission for the use of an approach to the Morrisville-Trenton Bridge now under construction. The fire company charged that it needed the land to build a new station.

ceptually vital to Lower Bucks County and to the defense effort. It is even thought that it is reasonable to presume that the port may be used as an airline stop in the future.

Marty Green, chairman of the Bristol Chamber of Commerce Advisory Committee, is enlisting all the support possible to persuade the Philadelphia Electric Company to change its plans and either put the towers a greater distance away or run the wires underground at the point of objection.

Mr. Green, on behalf of the Bristol Chamber of Commerce, will make a plea to the Philadelphia Electric Company and endeavor to have this backed-up by industries in the area to change the plans. Many executives of industries in the area are now using the airport and during World War II. Navy personnel used it very often while making tours of inspection of industries in this section.

It is believed that the Philadelphia Electric Company will put forth every effort to cooperate with Lower Bucks County as so many communities are affected.
